

SURECHILL

COOLING THAT SAVES LIVES

VACCINE WASTAGE
ESTIMATED BY GAVI TO BE
\$332 MILLION

THE SURE CHILL ADVANTAGE

Used today in 38 countries

Accurate cooling

Freeze-free guarantee

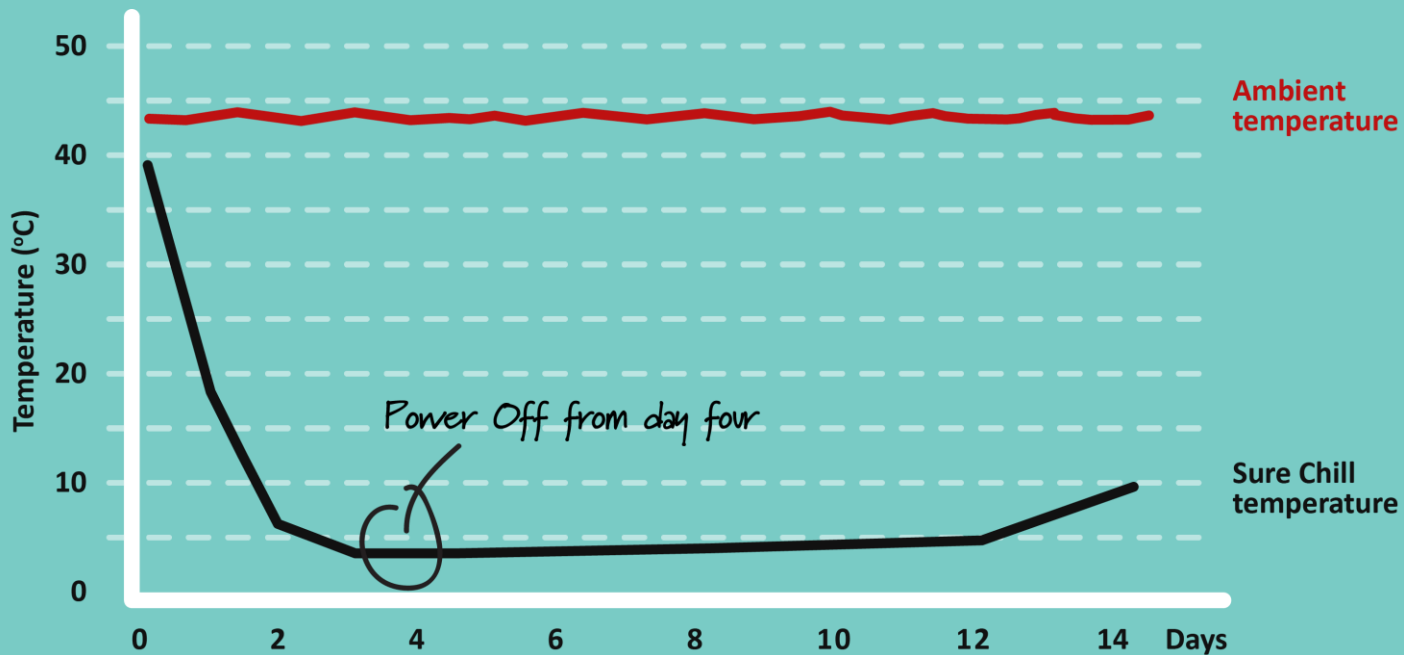

Active cooling without power

No reliance on batteries

Next generation

10 DAYS COOLING FOR VACCINES WITHOUT POWER

AWARD WINNING INNOVATION

“It is my view that Sure Chill technology could make a huge contribution to childhood vaccination programs worldwide, and especially in poorer countries”

Sir Richard Feachem KBE
Director of the Global Health Group and
Professor of Global Health and the University
of California

“Sure Chill has the potential to improve the living conditions and healthcare of populations around the world and to lessen the impact of global warming on mankind.

There can be no greater purpose.”

PROFESSOR SIR JOHN HOUGHTON CBE, FRS
NOBEL PEACE PRIZE WINNING SCIENTIST
