

# On the Fast-Track to end AIDS

## **HIV & AIDS in the Post 2015 Development Agenda**

**Miriam Maluwa  
Country Director,  
UNAIDS Ethiopia**

# Global summary of the AIDS epidemic | 2013

<b>Number of people living with HIV</b>	Total	35.0 million [33.2 million – 37.2 million]
	Adults	31.8 million [30.1 million – 33.7 million]
	Women	16.0 million [15.2 million – 16.9 million]
	Children (<15 years)	3.2 million [2.9 million – 3.5 million]

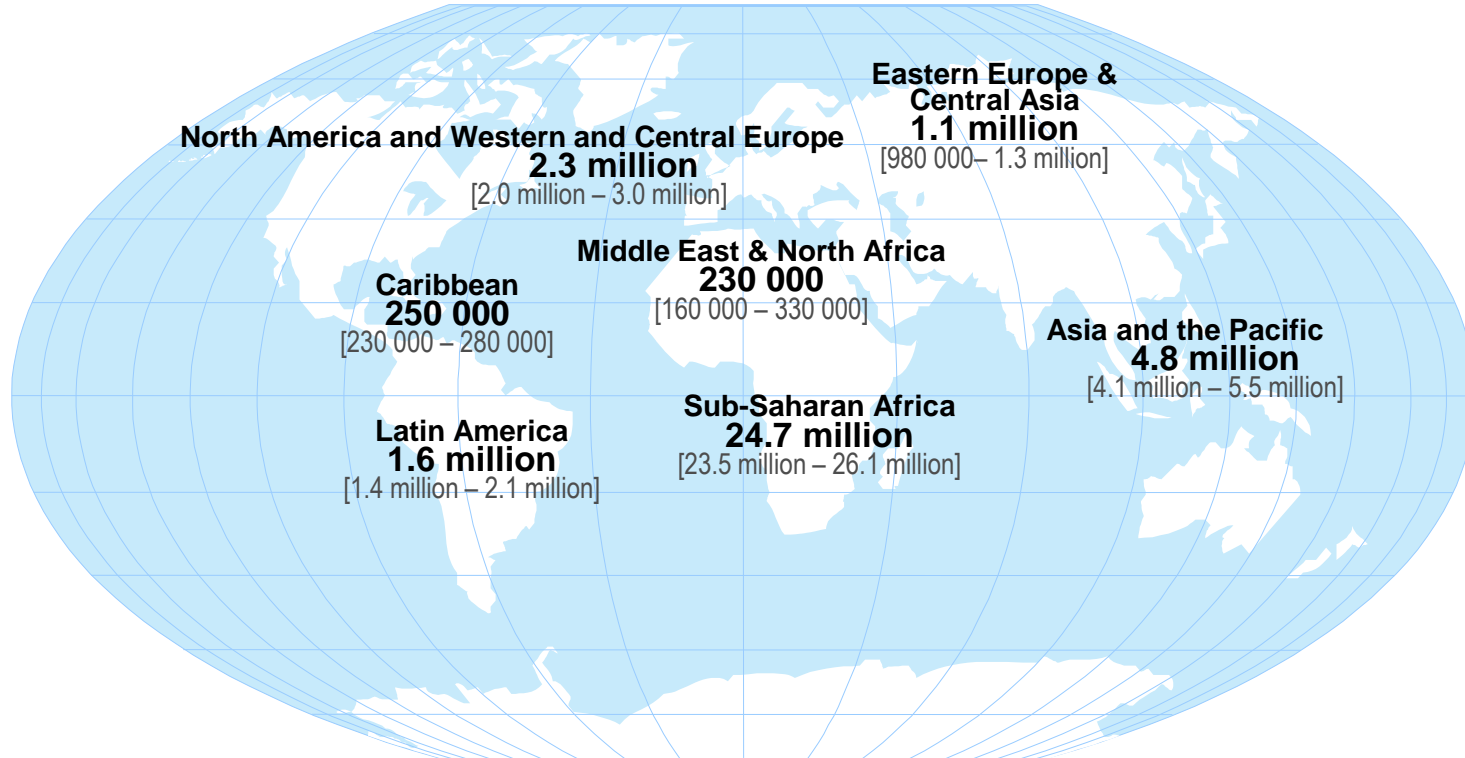

---

<b>People newly infected with HIV in 2013</b>	Total	2.1 million [1.9 million – 2.4 million]
	Adults	1.9 million [1.7 million – 2.1 million]
	Children (<15 years)	240 000 [210 000 – 280 000]

---

<b>AIDS deaths in 2013</b>	Total	1.5 million [1.4 million – 1.7 million]
	Adults	1.3 million [1.2 million – 1.5 million]
	Children (<15 years)	190 000 [170 000 – 220 000]

# Adults and children estimated to be living with HIV | 2013

**Total: 35.0 million** [33.2 million – 37.2 million]

# Goal and target framework

Zero new HIV infections      Zero discrimination      Zero AIDS-related deaths

↑  
SDG AIDS target for 2030

End the AIDS epidemic

Key AIDS-related SDGs for 2030

SDG 3 Good health and well- being	SDG 5 Gender equality	SDG 10 Reduced inequalities	SDG 16 Peace, justice and strong institutions	SDG 17 Partnerships for the goals
--	-----------------------------	-----------------------------------	---	---

Strategic milestones for 2020

Fewer than 500 000 new HIV infections	Fewer than 500 000 AIDS-related deaths	Elimination of HIV-related discrimination
---	--	---

↑  
Targets for 2020

# Result areas 1 and 2

## Good health and well-being SDG 3

Children, adolescents and adults living with HIV access testing, know their status and are immediately offered and sustained on affordable quality treatment

- Testing
- Infant diagnostics
- Services upon diagnosis
- Regular monitoring
- Affordable treatment
- Humanitarian emergencies
- R&D

New HIV infections among children eliminated and their mother's health and well-being is sustained

- Immediate treatment for pregnant women
- HIV, SRH, FP, TB, MCH integrated
- Services for male partners

# Result areas 3 and 4

## Reduced inequalities

SDG 10

Young people, especially young women and adolescent girls, access combination prevention services and are empowered to protect themselves from HIV

- Independent and equal access to services
- Combo prevention, including primary
- 20 billion condoms
- 27 million VMMC
- CSE
- Young people engaged

Tailored HIV combination prevention services are accessible to key populations, including SWs, MSM, PWID, transgender people, and prisoners, as well as migrants

- Combo prevention, including primary
- New media
- 3 million on PrEP
- Harm reduction
- Crisis affected populations
- PLHIV and key pops engaged

# Result area 5

## Gender equality SDG 5

Women and men practice and promote healthy gender norms and work together to end gender-based, sexual and intimate partner violence to mitigate risk and impact of HIV

---

- Women, girls, men, boys involved
- Supportive laws, policies and practices
- Sexual and reproductive health and rights
- Economic empowerment
- Women, including WLHIV, engaged

# Result area 6

## Just, peaceful and inclusive societies

SDG 16

Punitive laws, policies, practices, stigma and discrimination that block effective responses to HIV are removed

- 
- Punitive laws removed
  - Know your rights
  - Access to justice
  - Non-discrimination in health, workplace, education
  - Violence against key pops prevented

# Result areas 7 and 8

## Global partnership SDG 17

AIDS response is fully funded and efficiently implemented based on reliable strategic information

- > \$31b available
- Sustainability transition plans
- Strategic info
- Efficiencies
- Technology transfer
- Support to civil society

People-centred HIV and health services are integrated in the context of stronger systems for health

- HIV-sensitive UHC
- Social protection
- Community systems
- HR for health
- Procurement and supply chain

## TARGETS FOR ENDING THE AIDS EPIDEMIC BY 2030

We aim to bring the HIV epidemic under control so that it no longer represents a public health threat to any population or country.

90%

reduction in new  
HIV infections

90%

reduction in stigma  
and discrimination

90%

reduction in  
AIDS-related deaths

# 10 targets for 2020

**90%** of PLHIV (children, adolescents and adults) know their status; 90% PLHIV who know their status are receiving treatment; 90% of people on treatment have suppressed viral loads

**Zero** new HIV infections among children, and mothers are alive and well

**90%** of young people are empowered with the skills, knowledge and capability to protect themselves from HIV

**90%** of women and men, especially young people and those in high-prevalence settings have access to HIV combination prevention and SRH services

**27m** additional men in high-prevalence settings are voluntarily medically circumcised, as part of integrated SRH services for men

**90%** of key pops, incl. SWs, MSM, PWID, TG people, and prisoners, as well as migrants have access to HIV combination prevention services

**90%** of women and girls live free from gender inequality and gender-based violence to mitigate risk and impact of HIV

**90%** of people living with, at risk of and affected by HIV report no discrimination, esp. in health, education and workplace

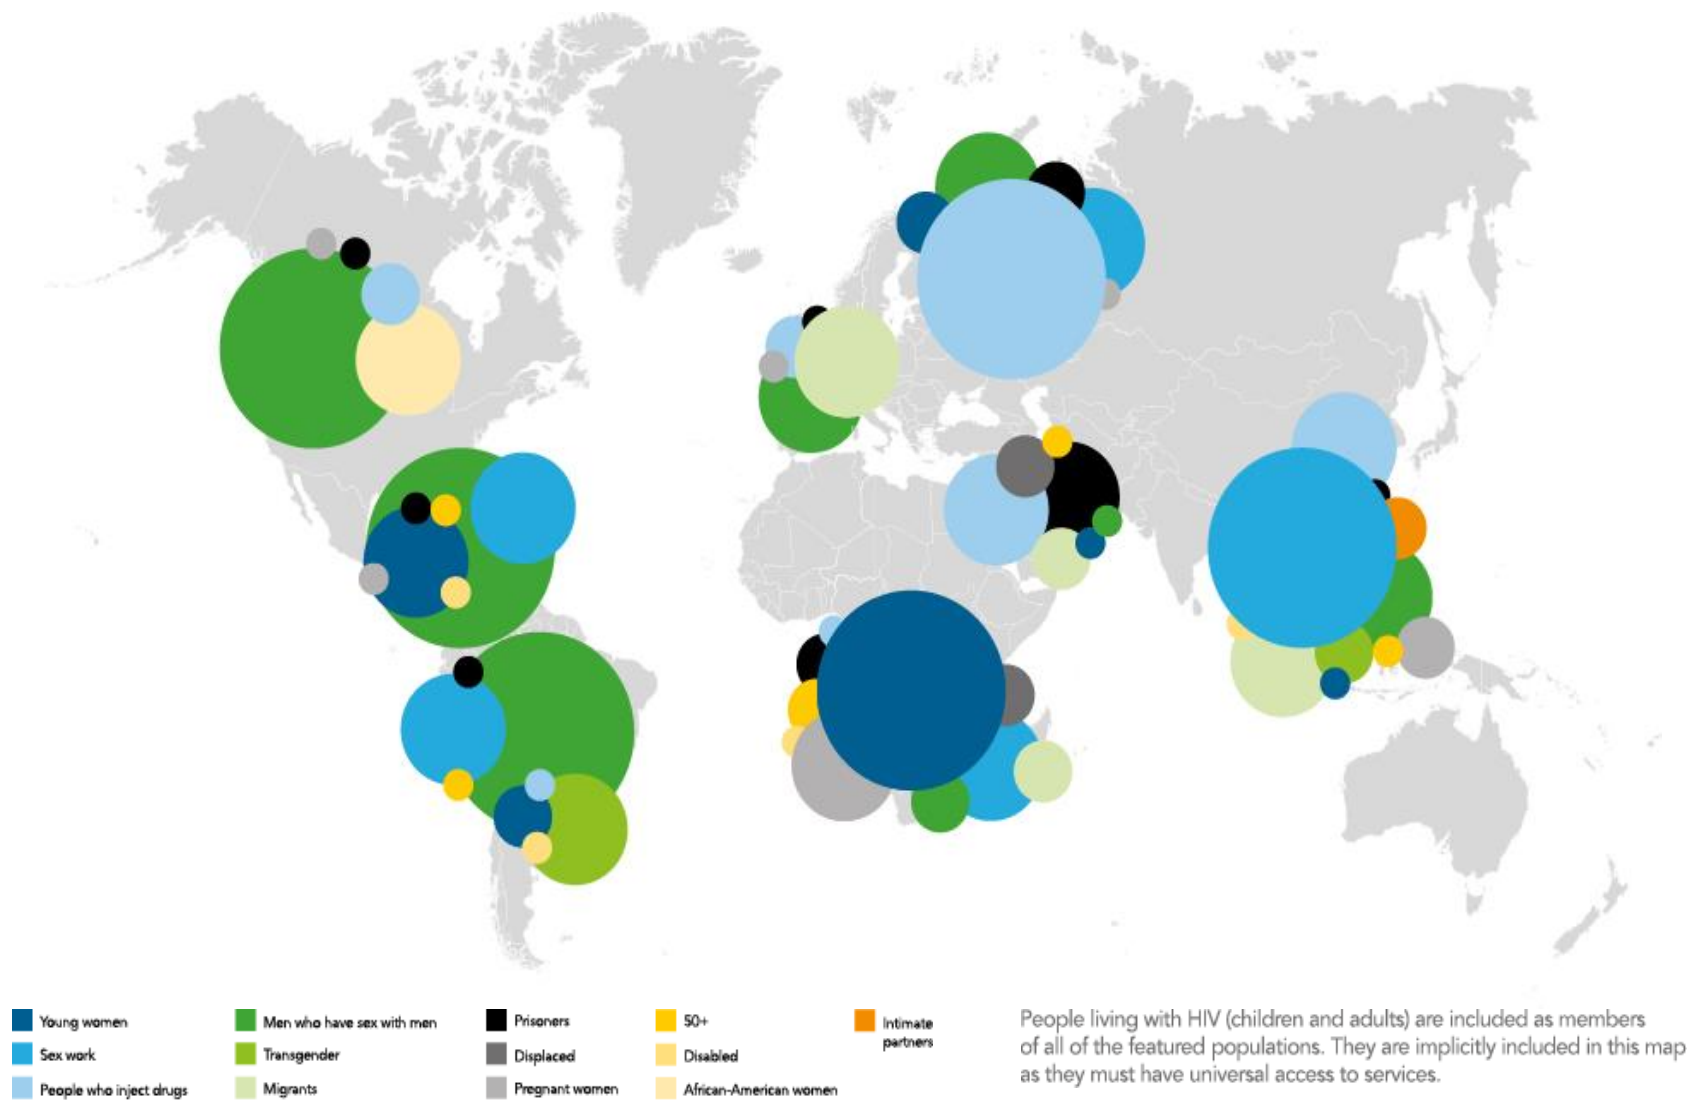

Overall financial investments for the AIDS response in low- and middle-income countries reach at least USD 30 billion, with continued increase from the current levels of domestic public sources

**75%** of people living with, at risk of and affected by HIV, who are in need, benefit from HIV-sensitive social protection

## The importance of location and population

Source: UNAIDS

# Key features

UNAIDS 2016 – 2021 Strategy

Evidence-informed, balanced, towards ending the epidemic by 2030

Firmly situated in broader SDG agenda – emphasizes “accelerators”

Global

Focus on women, girls and young people

Builds on previous strategy – 3 Zeros, 3 Strategic Directions

Discrete, focused, people-centred targets

# Strategy available online
