Every minute
24 people are displaced

Source: UNHCR / 20 JUNE 2016

The number of people displaced by war has reached a staggering new high

Source: UNHCR / 18 June 2015

Global Trends 2014 © UNHCR

Lack of lighting is another major problem in many refugee camps. After sunset camps are often completely dark. This means that many activities can only be completed during the day. For example;

- Children cannot do their homework in the evenings reducing their chances of completing their education.
- Many people, especially woman and children, do not feel safe walking around the camp after nightfall.
