Office 365

Office 365 provides your nonprofit anywhere access to web-based versions of the Office tools you know, plus professional email, web conferencing, file sharing, and more.

Microsoft Azure

Azure is a growing collection of integrated cloud services —analytics, computing, database, mobile, networking, storage, and web—for moving faster, achieving more, and saving money.

Dynamics 365

Microsoft Dynamics 365 is a set of business applications to help your organization find and manage donors, optimize financial operations, manage grants, and coordinate resources from field-to-office to drive a deeper impact.

Power BI

Microsoft Power BI transforms your nonprofit's data into rich visuals for you to collect and organize so you can focus on what matters to you. It helps users to spot risks and find opportunities.

Enterprise Mobility

Enterprise Mobility Suite keeps your employees and volunteers productive on their favorite apps and devices—and your nonprofit's data protected.

Windows 10

Windows 10 makes your everyday tasks easier, with the reliability, productivity and security your nonprofit needs. Easily upgrade, regardless of what version of Windows you are currently running.
